

Highway Superintendent Report: 02/21/2017 * Larry White

The bulk of our time has been spent on snow and ice removal.

We have chipped brush from the trees we removed on the Tooley Pond road.

We have removed more trees on Donnerville road and cleaned up a blown down tree from the Belleville cemetery.

We continue to do service and maintenance on the county track drill as time allows.

We completed work on building screens for the 2009 Mack and it is on line with everything working well.

We are working with the DEC for upcoming work on the McCarthy road.

We have trimmed over hanging limbs on several roads.

We have the quotes in for the loader replacement.

The men have worked well and I thank the men for a job well done.
