

Highway Superintendent Report: 01/16/2018 * Larry White

We have replaced a driveway pipe on the Given road.

On the cold days the men worked on cleaning the shop and on the plows.

Most of our time has been plowing and sanding with no major problems.

The heavy rain put water over several roads. At the cove on Pestle Street the water was approximately 2 feet deep on the road. When the water dropped we cut it off with the grader and opened the road on Sunday.

I thank the men for a job well done.
