

Highway Superintendent Monthly Report

Highway Superintendent Report: 04/16/2019 * Larry White

Now that the snow has let up we have stripped and cleaned up 2 of the trucks and painted the boxes as needed.

We have cut trees on the Hewlett, Blackmer and Forbes roads.

We have cleaned up sand in Russell and DeGrasse as well as several areas with excess build up.

We have swept most roads and some need it done again because of heavy build up over the winter

We have fabricated several sections of steel to make repairs to boxes on the trucks.

We have repaired a section of gravel roads on the Silver Hill Center and Forbes roads and ran the grader on all the gravel roads.

We will be grading them again when the frost comes out.

We have repaired the section behind the barn where we dump wood and started filling the sheds.

This has been a productive month and I thank the men.
