

## Highway Superintendent Monthly Report

### **Highway Superintendent Report: 06/18/2019 \* Larry White**

The only work left on our Capital Projects is pouring a top for the catch basin on the Pyrites Russell road and some clean up and grading of shoulders on Mill and Maiden lane. All projects came out as planned and we thank the county crew for an excellent job done.

We repaired a section of guide rails on the Pyrites Russell road and Pestle Street and cleared the sand around them for drainage.

We have replaced 1 road crossing and 1 driveway pipe on Pyrites Russell road and removed 1 no longer needed; 1 crossing and 3 driveways on Mill Street and 1 crossing on North Woods road. The old catch basin on the Pyrites Russell road has been removed and we installed a new one.

We have been patching, grading and adding gravel to gravel roads as needed..

On 05/30 we attended our safety and sexual Harassment classes.

We thank Dekalb and Edwards for their assistance with our paving.

This has been a busy month with good results and I thank the men for a job well done.
