

Highway Superintendent Monthly Report

Highway Superintendent Report: 07/16/2019 * Larry White

We have assisted Dekalb with their paving and Edwards with trucking.

We have removed 2 large trees on the Forbes road and cut brush on sections of Blanchard Hill and Pyrites Russell roads as well as sections of Dutton road.

We have installed fill on the shoulder sections to be raised on the Lazy River road.

On 06/20 the heavy rains took out a section of the road on Fordham Hill.

We still need to know the boundaries for the parking area at the old school ball field.

We have replaced 1 pipe on Curtis road and 1 on Silver Hill road and 2 on Cook road and 1 on the Hill road.

We have completed mowing road sides for the first time.

We have blended material from our pit for the base of the fill areas on Lazy River and Blanchard Hill roads we applied we will coat with crushed gravel.

We are hiring a replacement for Bill to start next week.

We are assisting the county with drilling in Massena.

This has been a productive month and I thank the men for their effort.
