

## Highway Superintendent Monthly Report

### **Highway Superintendent Report: 09/17/2019 \* Larry White**

We have completed our reconstruction projects on the Lazy River road. We have increased visibility at the White road intersection from approximately 150 ft to 750 ft.

We have cut shoulders on the Lazy River, North Woods and White roads and added the material to the shoulders as needed for the fill areas.

We have removed trees on the Backus, Forbes and Cassidy roads.

We have replaced pipes on the Pyrites – Russell, Lazy River, Hill, Blanchard and Belleville roads. The pipe on the Belleville road was to increase size to prevent another washout we had earlier.

We have added gravel and graded the gravel roads as needed and patched paved roads.

I will go over the information I have so far on the Spicer road bridge and its red flag inspection.

We have worked with Edwards, Hermon and Dekalb and they helped us truck in fill for our projects.

We will be working on our areas to pave today.

We continue to mow roadsides as time allows.

This has been a busy month with good results and I thank the men.
