

## Highway Superintendent Monthly Report

### **Highway Superintendent Report: 10/22/2019 \* Larry White**

We have completed shoulders on the last paved sections.

We have completed mowing roadsides including seasonal roads.

We completed the repairs on the Spicer road bridge. We have also made repairs to one of the wing walls.

We have patched in the section of Fordham Hill road that washed out and will shim this section with T7 Hot mix.

All men attended the last of our MSHA and quarterly safety meetings.

We have replaced the sand screen in our Screener and started screening.

We have graded and rolled all gravel roads that needed it and added gravel to some sections.

We have replaced a pipe crossing on the Backus Road seasonal section and lowered a pipe crossing on the Cook road.

We have removed 2 trees from the housing area and the wood taken to the barn.

Twice per week we must clear beaver areas on the Hewlett, Cook, Silver Hill and Pyrites-Russell roads.

This has been a busy month and I thank the men for a job well done.
