

## Highway Superintendent Monthly Report

### **Highway Superintendent Report: 05/19/2020 \* Larry White**

After a call from Tim.

We returned to work on 5/11/20.

We have washed the sand & Salt from our plow trucks and got them ready for summer use.

We have patched all roads.

We have cleared all beaver areas replaced a driveway pipe on Pyrites Russell road.

We blasted the section on Boyd Pond road and started clean up.

I have heard complaints on the way we handled the shutdown. We know the risk of the virus, but certain road conditions can be more deadly, we have to protect the traveling public and protect the town from possible lawsuits which means when hazards are reported to me or I see them we must address the problem. That is what I have done (my job) and protected the men to the best of my ability not being disrespectful of the Town Board or to anyone.
