

Highway Superintendent Monthly Report

Highway Superintendent Report: 10/20/2020 * Larry White

We have been working with the county as needed for shoulder work.

We have repaired shoulder washings on Cassidy, North Woods, Pestle, West and Fordham Hill roads.

We have cleaned up scrap metal that was dumped at the Pit.

We have got all trucks through inspections.

We have been patching roads as time allows.

We have replaced driveway pipes on Town Line and Fordham Hill roads and removed un-needed steel from pipe on the Cook road.

We have completed roadside mowing and the mower and tractor have been serviced and stored.

We have completed brush cutting on the Boyd Pond road and will be chipping the remaining brush as time allows.

We have been looking into the catch basin and piping at the corner of Pestle and Pyrites Russell roads and the county plans to repair the drainage.

We have graded the washed sections of the South Russell cemetery.

We have completed paving the Boyd Pond road and we thank the towns of Hermon, Dekalb and Pierrepont for their help trucking. We will be doing shoulder work soon. We are helping Dekalb with their paving.

This has been a busy month and I thank the men for a job well done.
