

Highway Superintendent Monthly Report

Highway Superintendent Report: 04/20/2021 * Larry White

We have cut trees on the North Woods, Grandy, Lazy River, Fordham, Blanchard and Belleville roads.

We now have both woodsheds full and approximately 20 cords still outside.

We have stripped the plows and sand equipment and washed everything down and did some paint touch-ups.

All roads have been swept and bridges cleaned.

We have been through all roads patching and will be going through them again soon.

We have graded and added gravel where needed on all roads.

We have stripped rock on Fordham and Lafaver roads; drilled and will be blasting Wednesday. This will increase visibility on Fordham Hill and drainage on Lafaver roads.

All men have had their MSHA first Aid and CPR classes.

I thank the men for a productive month.
